Subject: CSoC Provider Notice: Change in Email Communications

Provider Notification: Changes to Email Communications

Provider Update

All CSoC Network Providers

Subject Line: **Notice of Change to Provider Communications**

Magellan has recently switched email providers for our communications to network providers. We will begin using the new email for mass distribution of provider communications on June 1st.

This has one unintended side effect of the old communications not being quite as reliable. The embedded links in those emails will no longer work since the old service will not be available. Please refer to <https://www.magellanoflouisiana.com/for-providers/provider-toolkit/provider-announcements/> as it has all of the prior communications on it. We apologize for any inconvenience, but this link will have future communications added and should be saved for future reference.

Please reach out to your [Network Management Specialist](#) (NMS) with any questions or concerns. Your NMS is available for support.

Thank you for all you do in supporting the members of CSoC.
