Subject: Exciting Opportunity for Mental Health Professionals: Learn About CSoC Incentive Payments!

The Magellan of Louisiana is pleased to announce a unique opportunity for licensed mental health professionals. We have partnered with the Office of Behavioral Health (OBH) to offer temporary incentive payments within the Coordinated System of Care (CSoC) provider network.

CSoC is a program that aims to provide comprehensive and coordinated mental health services to youth and families in need. By participating in CSoC, you can play a vital role in improving the well-being and functioning of youth with complex behavioral health needs.

Magellan is hosting three live informational webinars to help you understand the program and take advantage of the incentive payments. These sessions will cover key topics such as provider qualifications, eligible service codes, claims submission, and payment procedures. Don't miss out on this opportunity to enhance your practice while positively impacting your community.

Join us for informative webinars on the Zoom platform! There are three dates/times to choose from. The session will run for approximately 45 minutes, followed by a Q&A session. Choose the most convenient date and time for you, and remember to add it to your calendar.
