

# Claim Submission – EBP Tracking Codes

---

**Magellan**  
HEALTHCARE®

# Getting Started

- In March of 2019 Louisiana Department of Health implemented EBP tracking codes to be used on claims when therapy sessions utilize Evidence Based Practices.
- To use the tracking codes on claims, the therapist must first provide documentation of completion of approved training, as part of the therapist's credentialing package.
- Providers will communicate utilization of EBP by including the corresponding tracking code in the note field of the claim record sent to Magellan. Magellan accepts the EBP tracking codes on claim records in either the CMS 1500's Field 19 or in the 837 electronic files in Loop 2400 SV101-7 data element or in the note field on Magellan's provider portal for claim submissions.

# Approved EBP and Assigned Tracking Codes

- Therapists bill standard CPT individual and family therapy codes for sessions as indicated in the table. While ACT, FFT and Homebuilders® are considered Evidenced Based Practices, EBP tracking codes are not required as these services have a unique procedure code and/or modifier combination that distinguishes it as an EBP.
- Please reach out to your [Network Management Specialist](#) with any questions or concerns. Your NMS is available for support.
